COMPANY PROFILE

EDITION 2026

Egypt's 3D printing ecosystem, under one roof.

Printers, materials, spare parts, training, maintenance and custom printing for businesses, institutions and makers.

LANCER 3D

LANCER3D.COM • CAIRO

WHO WE ARE

Egypt's pioneers in 3D printing services.

Since 2018, Lancer3D has helped companies, institutions and individuals across Egypt turn ideas into printed parts. We sell FDM and resin printers, keep materials and spare parts ready, and run our own maintenance and technical support team.

Our goal is simple: make 3D printing easy to start with and easy to depend on, for a first-time maker and a production floor alike.

Founded	**2018, Cairo**
Leadership	**Mohamed Gouda, Founder & CEO**
Branches	**Two, in Shubra, Cairo**
Service area	**All of Egypt**
Technologies	**FDM and resin (SLA / MSLA)**

WHAT WE STAND FOR

Three promises behind every machine we sell.

01

Practical

The right machine for the job, explained in plain terms, with no over-selling.

02

Supported

Our own maintenance and technical team, from setup to repairs.

03

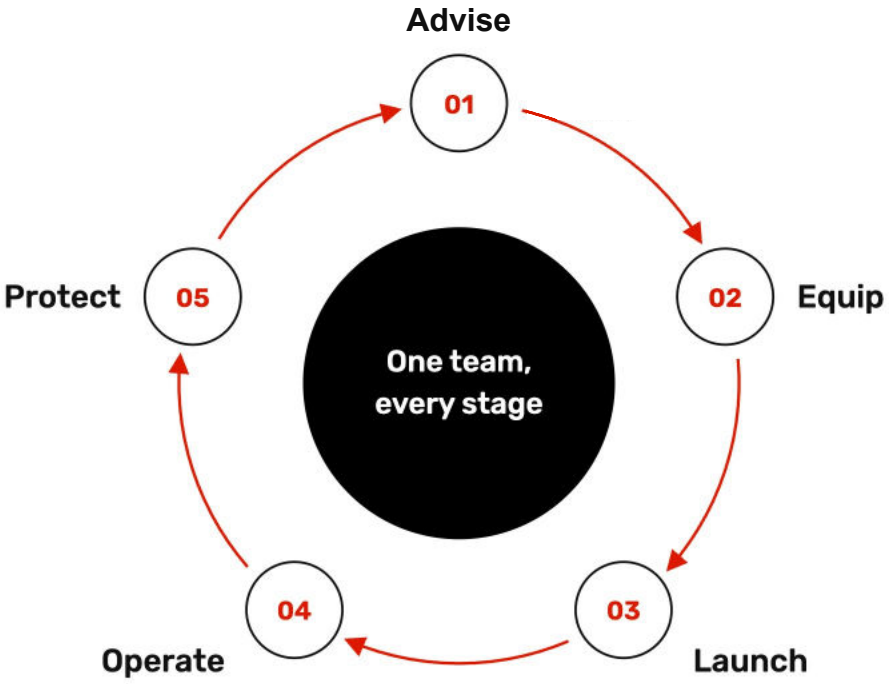
Local

Parts, materials and service in Egypt, so downtime stays short.

THE LANCER3D 3D PRINTING ECOSYSTEM

An ecosystem, not a catalog.

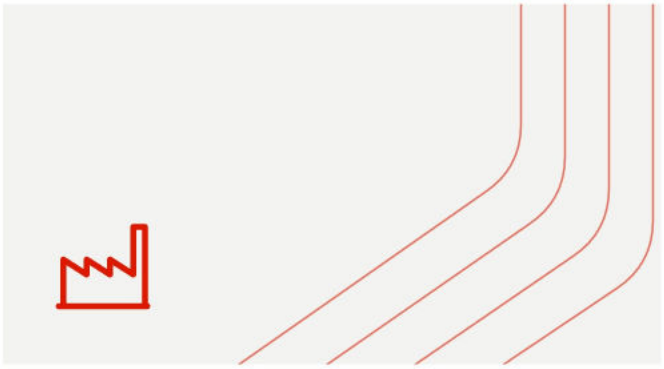
Every stage of owning a 3D printer is handled by the same team, from the first question to years of daily use. Nothing falls between suppliers.



01	**Advise**	We review the application and recommend the right technology, FDM or resin.
02	**Equip**	Printers, filaments, resins, accessories and post-processing tools.
03	**Launch**	Delivery, setup and operator training, at our HQ, online or at your site.
04	**Operate**	Consumables and spare parts ready when you need them, plus custom printing and design.
05	**Protect**	A 12-month warranty, in-house maintenance and the Lancer Shield upgrade.

SECTORS

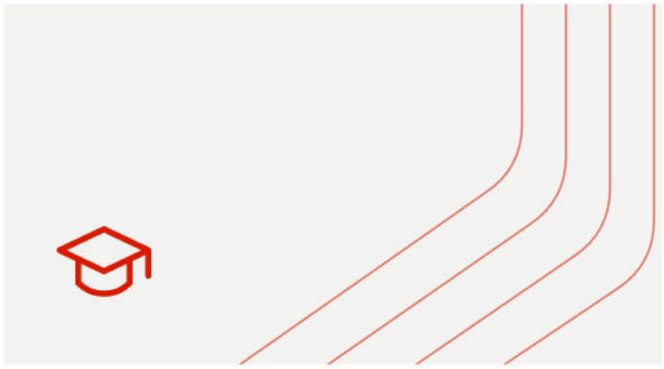
From factory floors to dental labs.



01

Industry & engineering

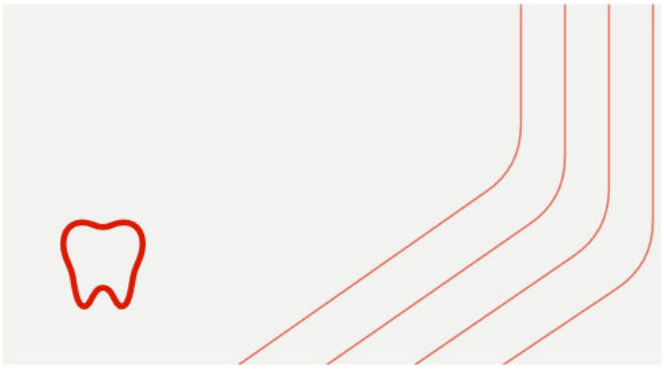
Prototypes, jigs, fixtures, tooling and functional parts for factories and R&D teams.



02

Education & research

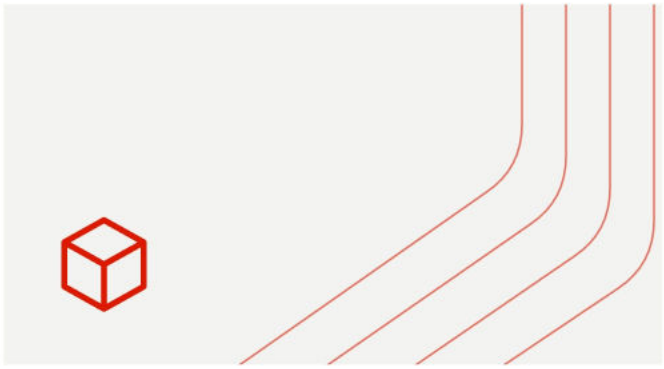
Equipment, training and hands-on workshops for universities, schools and research labs.



03

Dental & medical

Resin workflows for dental labs, clinics and surgical planning.



04

Makers & creators

Accessible machines, materials and know-how for individuals and small studios.

Also serving jewelry manufacturing and the advertising and signage industry.

CASE STUDY · FACULTY OF DENTISTRY, AIN SHAMS UNIVERSITY

From test prints to an in-house lab.

THE JOURNEY

1 year of test printing before the first order

RESIN PRINTER

Saturn 4 Ultra

POST-PROCESSING

Wash & Cure unit

THE NEED

Researchers at the faculty needed their samples and research projects printed and tested with care.

WHAT WE DID

For a full year, our team printed their work on Lancer3D printers, trying different materials and tuning settings for the best research results.

THE OUTCOME

The faculty ordered a Saturn 4 Ultra resin printer and a Wash & Cure unit, delivered to its Department of Material Properties.

Start with test prints. Bring the capability in-house when you are ready.

SERVICE & PROTECTION

Two levels of protection for every printer.

Every printer includes our Standard Warranty. Lancer Shield upgrades it with on-site visits, faster response and deeper discounts.

	INCLUDED **Standard Warranty**	UPGRADE **Lancer Shield**
Warranty period	12 months	12 months
Delivery & installation	Not included	Free on-site delivery and assembly
